Skills

o **Programming Languages** (Java, C++, PHP, JS, Python, e.g.)

o **Web Development** (Node.js, HTML, CSS)

o **Machine Learning & AI** (XGBoost, LightGBM, CNNs, e.g.)

o **Software Development** (UML, OOP, e.g)

o **Tools & Technologies** (Git, Docker, Jupyter Notebooks, e.g)

o **Big Data & Cloud** (Hadoop, MapReduce, MongoDB)

o **Database Management** (e.g., MySQL, PostgreSQL, MongoDB)

projects

- **Java Projects:**
- **Node JS Projets :**
- **Artificial intelligence & machine learning Projects :**

- **Java Script Projects :**
- **HTML & CSS Projets :**
- **PHP Projects:**

Training Experience

💻 Front-End Web Developer   📅 May 2024 – Oct 2024
(Udacity with Spark, Google, & Palestine Launchpad)

- Built responsive web applications using modern front-end technologies.
- Gained expertise in JavaScript, HTML, CSS, and front-end frameworks.

🧩 Problem Solving Training – Level 2   📅 June 2024 – March 2024
(Code Academy)

- Developing problem-solving skills using the C++ language and training in different techniques
- Training was done using following data structures such as Stack, Set & Map, Vector, complexity contest

🎨 Introduction to Front-End   📅 May 2023 – Oct 2023
(Elzero Web School)

- Learned front-end basics using **HTML & CSS**.
- Completed multiple projects to reinforce skills.

Education

🎓 **Front-End Web Developer Nanodegree – Udacity**   *(May 2024 – Oct 2024)*

🎓 **B.A., Palestine Technical University (PTUK)**   *(Oct 2021 – Present)*
